

Intel® Education Teachers Engage

Teachers Engage is a global online educational community that supports the core concepts of the Intel Teach Program courses: effective use of technology, instructional design, project-based approaches, assessment of 21st century skills, and open-ended questioning.

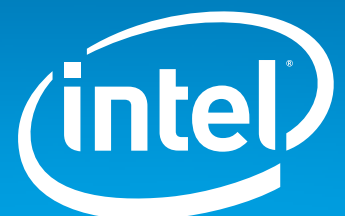

We invite all educators to share their reflections and best practices.

Why should you join?

- Learn about Web 2.0 tools and how to effectively use them in the classroom
- Network with educators worldwide (Intel Teach participants represent 60 countries)
- Be informed on ed tech policies and share your point of view
- Engage in community activities for opportunities to win cool technology gadgets for your classroom
- Participate in our Webinars or host one of your own for the community
- Access all your Intel Teach training resources in one location
 - Receive tips, tricks, and strategies for effective trainings
 - Create a group to support your next Intel Teach training (blogs, collaborative work space, wikis...all in one space)
 - Get training updates and provide feedback to the Intel Education team
- Share your stories of results with other inspiring educators
