With the flexibility and mobility of a tablet plus the performance and productivity of a laptop, the Intel® Education 2 in 1 gives students the best of both worlds in one device. A reference design of versatile learning, the ruggedized, durable Intel Education 2 in 1 is drop, water and dust resistant, which ensures the device can stand up to hands-on learning inside and outside the classroom.

The Intel Education 2 in 1 features a snap-on magnification lens and a temperature sensor probe, which work with the Intel® Education Software suite to enable experiments that inspire student curiosity and promote inquiry. With the Intel Education 2 in 1’s dual-docking mode, students can turn the tablet screen to face their peers to facilitate collaboration.
