Scalable Architecture For All Laptop Segments

Introducing

12th Gen Intel® Core™ Processors for Thin & Light Laptops

Enthusiast-Level Performance

New P-series Processors – up to 70% faster

Superior Productivity

Web Browsing, Photo Editing, Office – up to 30% faster

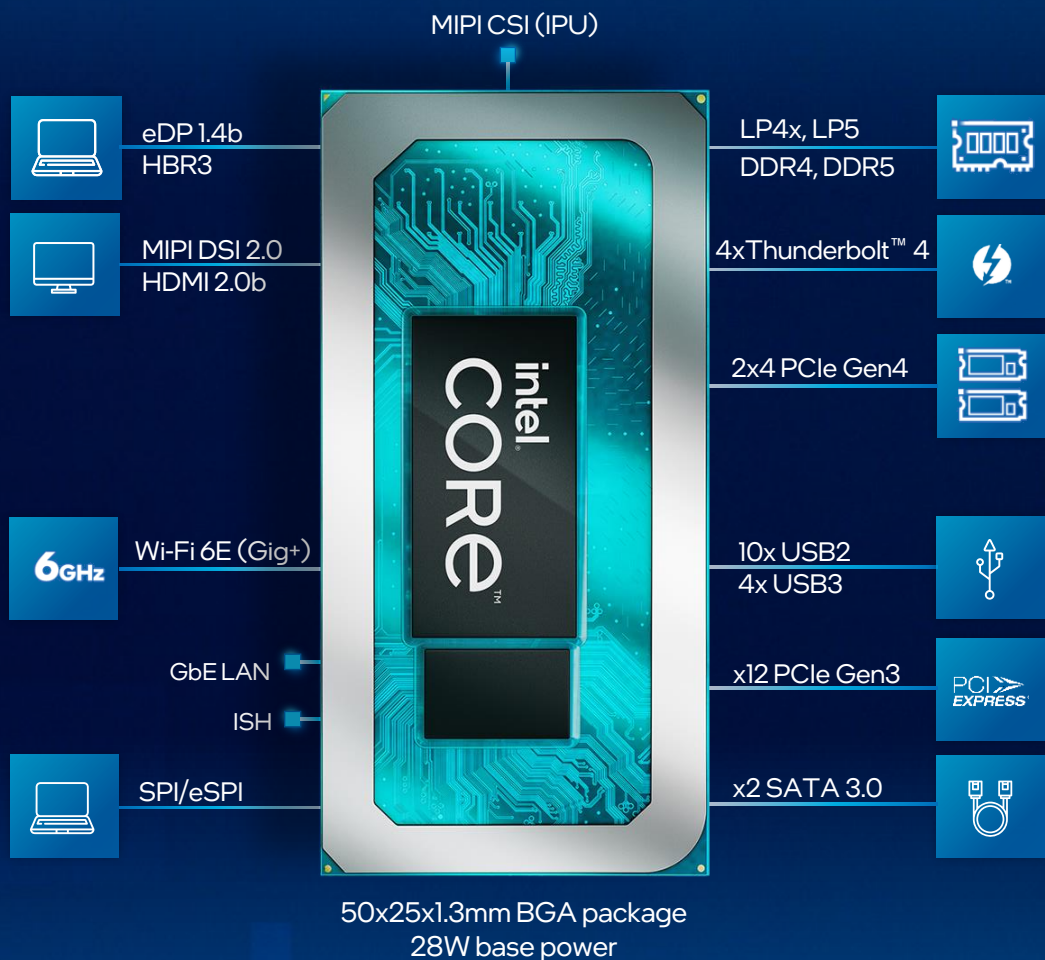

Cutting-Edge Platform Technologies

Intel Wi-Fi 6E (Gig+), Thunderbolt™ 4, and Imaging

What's New

12th Gen Intel® Core™ P-series Processors

All-New Core Architecture

Up to 14-cores: 6 P-cores + 8 E-cores
Intel® Thread Director

Iris® Xe Graphics

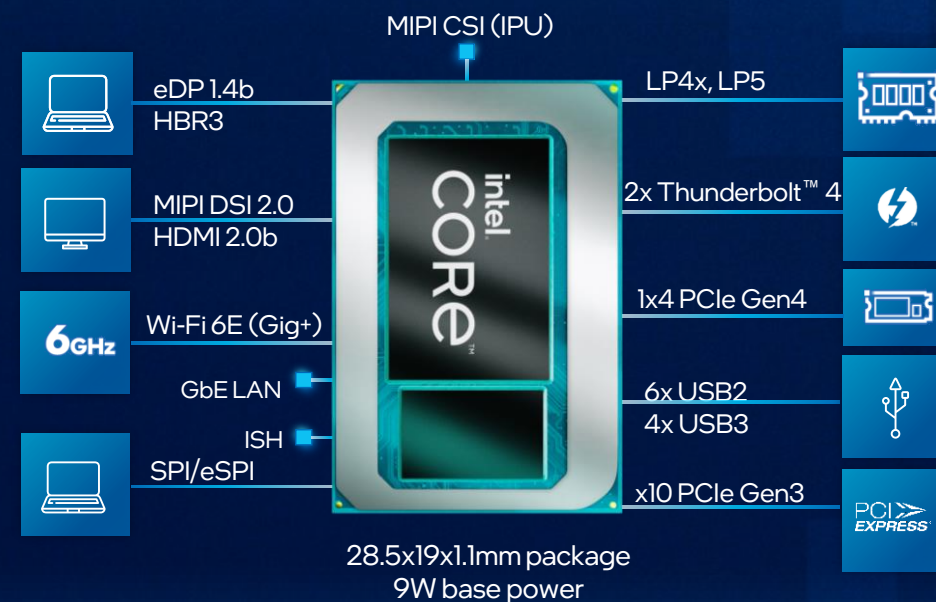

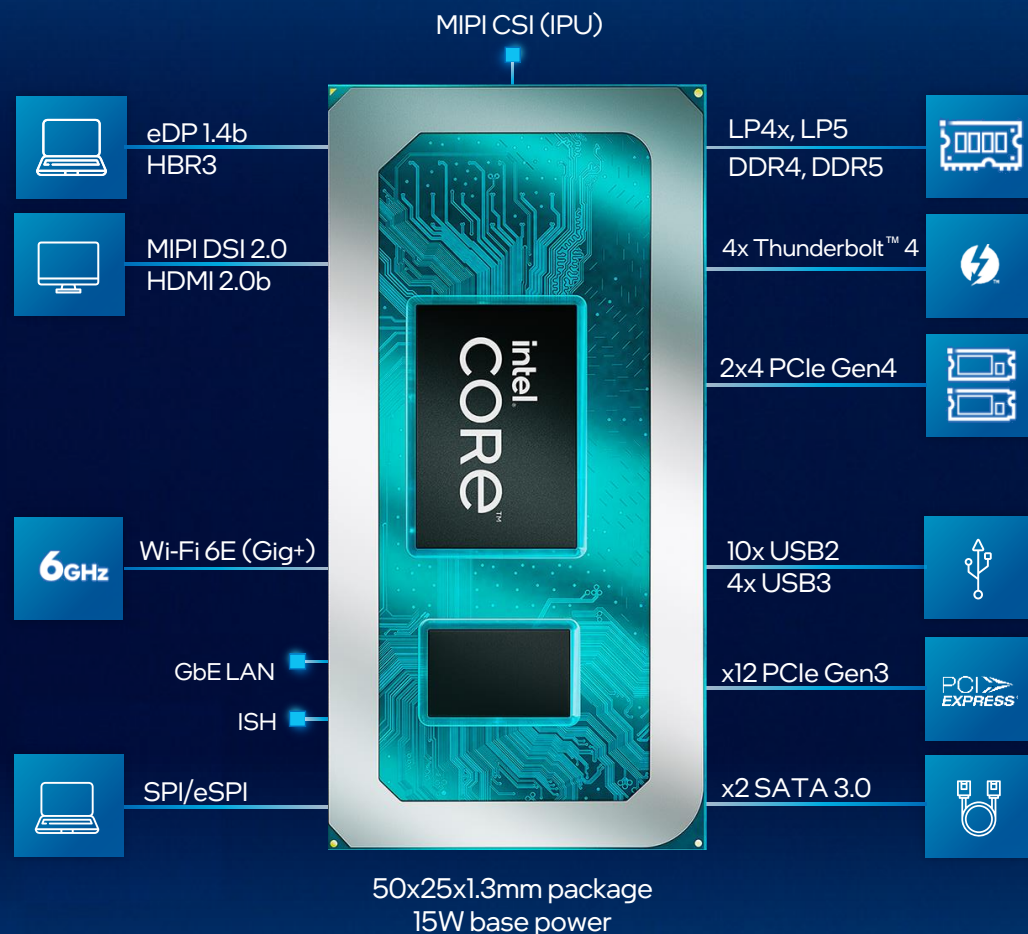

Up to 96EU, 4x 4K displays, 12b video pipeline
Up to 8K30 10b HEVC/VP9 encode

Broad Memory Support

DDR5-4800, DDR4-3200
LPDDR5-5200, LPDDR4x-4267

What's New

Intel® processor numbers are not a measure of performance. Processor numbers differentiate features within each processor family, not across different processor families. The frequency of cores and core types varies by workload, power consumption and other factors. Visit <https://www.intel.com/content/www/us/en/architecture-and-technology/turbo-boost/turbo-boost-technology.html> for more information. Intel Thermal Velocity Boost not supported on 12th Gen mobile processors. Max Turbo Frequency for P-cores may include Intel Turbo Boost Max 3.0. All SKUs support up to DDR5 (4800 MT/S)/DDR4 (3200 MT/S)/LPDDR5 (5200 MT/S)/LPDDR4 (4267 MT/S) memory. See ark.intel.com for more specification details.

Intel Led Innovation Inspiring the Ecosystem

Intel® Evo™ Design Foldable Display Spec

**Meets all Intel Evo Platform
Key Experience Requirements**

AND

**New Form Factor to adapt to
new use cases and experiences**

**>16.x" > QHD Foldable Touch
Immersive Display**

**Must offer a discrete Bluetooth
keyboard accessory**

Notices and Disclaimers

All information provided here is subject to change without notice. Contact your Intel representative to obtain the latest Intel product specifications and related information.

Performance varies by use, configuration and other factors. Learn more at [www.Intel.com/PerformanceIndex](https://www.intel.com/PerformanceIndex).

Unless otherwise noted, testing as of dates shown in the configurations and may not reflect all publicly available updates. See above for configuration details. No product or component can be absolutely secure.

Your costs and results may vary.

Intel technologies may require enabled hardware, software or service activation.

Built into the hardware, Intel® Thread Director is provided only in performance hybrid architecture configurations of 12th Gen Intel® Core™ processors; OS enablement is required. Available features and functionality vary by OS.

All product plans and roadmaps are subject to change without notice.

Intel does not control or audit third-party data. You should consult other sources to evaluate accuracy.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

© Intel Corporation. Intel, the Intel logo, and other Intel marks are trademarks of Intel Corporation or its subsidiaries. Other names and brands may be claimed as the property of others.

The image features the Intel logo in white lowercase letters, centered on a dark blue background. The background is decorated with various squares of different shades of blue, some of which are slightly offset or semi-transparent, creating a layered effect. A small, bright blue square is positioned above the 'i' in 'intel'. A registered trademark symbol (®) is located to the right of the 'l' in 'intel'.
